

ASLAN Illustra for decorative designs

The glass decoration films from the Illustra-range give transparent surfaces a fresh and modern look. The transparent films are printed with an appealing, white design. ASLAN Illustra is available in the three attractive designs "Linen", "Dot" and "Snow".

The self-adhesive films are ideally suitable for applications that offer creative and modern sight protection, while ensuring a high light transmission. Fine air release channels in the adhesive allow air bubbles to be wiped out with ease, making the application fast and simple.

Advantages

- Dryapply technology: Fine air release channels in the adhesive allow air bubbles to be wiped out with ease, making the application fast and simple
- Structure of air release channels is almost invisible
- Significant time saving compared to polyester films due to easy handling
- Design is scratch-proof and resistant against solvents
- Long outdoor durability (min. 7 years)
- Printable with solvent, eco-solvent, latex and UV-curable inks as well as in screen printing
- Width of 1,37 m

ASLAN Illustra for decorative designs

Applications

- Stylish and modern decoration of transparent surfaces
- Creates decorative sight protection and modern solutions for dividing rooms without reducing light transmission
- For short and long-term applications on glass doors, room dividers, shopping windows etc.
- Ideal for private and public buildings such as offices, stores, seminar rooms, medical centres, banks, hotels, restaurants, airports etc.

A decorative pattern consisting of a regular grid of small, light-colored dots on a darker background.

Dot

A decorative pattern consisting of a dense, irregular grid of thin, light-colored lines on a darker background, resembling a woven fabric texture.

Linen

A decorative pattern consisting of a dense, irregular arrangement of small, light-colored dots and lines, resembling a snowflake or crystalline structure.

Snow
