Weight:	140 g/m ² paper 160 g/m ² composite
Adhesive:	waterbased acrylate adhesive, permanent
Liner:	siliconized glassine paper, 65 g/m ²
Opacity:	96%
Standard roll width:	36"
Standard roll length:	20 m
Core diameter:	3"
Storage:	cool and dry environment, at 15-25°C, 50% rel. humidity
Shelf life:	18 month in original packing

COMPATIBLE INKS:

Dye:	yes
Pigment:	yes

Different printers, inks, resolutions and printing qualities result into numerous different printing parameters. In addition, there are numerous factors influencing processing and the application of our materials. For this reason, we cannot make specific statements as to drying times and maximum ink absorption. For this reason, we recommend you to perform own tests in order to verify the desired results. Our product specifications are not to be understood as legally binding guarantees assuring specific characteristics. Any liabilities and guarantees, as well as claims for compensation beyond the value of the product itself are excluded.

EMBLEM Water Poster Paper Adhesive 140

Description:

On WAPOPADH140 can be printed with current dye-, pigment- and UltraChrome inks. Its coating allows extremely fast drying and as a result short-termed further processing. The smooth and closed surface provides a pleasant haptic and minimizes micro-air inclusions during lamination. You get a very high sharpness of lines and points. The permanent adhesive is suitable for smooth and flat surfaces indoors. EMBLEM WAPOPADH140 is environmentally and ecologically friendly, PVC-free and the adhesive is free of solvents.

Processing:

To protect the prints WAPOPADH140 can be laminated cold. We recommend the use of EMBLEM-laminates of the LAMPER cold-lamination series. To prevent lumps please consider that the prints have dried completely before lamination. The surface you want to stick the WAPOPADH140 on has to be cleaned from dirt, dust, grease etc. Please perform a compatibility-test between underground and adhesive before procession.

A residue of paper which remain after having peeled off the WAPOPADH140 again can be easily removed with water.

Please store the paper tightly rolled in its closed original packaging. To prevent fingerprints we recommend the use of cotton gloves.

Application:

Typical indoor-applications are shop window advertising, posters, presentations and interior design.
