(Translation of the German test report - no guarantee for translation of technical terms)

Sponsor:

Asphalt Art International AG

Bahnhof-Park 3 CH – 6340 Baar (Switzerland)

Test order:

2011-06-22

Arrived

2011-06-29

**Description of** 

samples:

Transparent, self-adhesive plastic film to be used on steel surfaces, named "AthleticWalk Laminate".

(for details see page 2)

Delivered:

2011-06-29

Content of request:

Proof of flammability to classify building materials to class B1 "schwerentflammbar" according to DIN 4102-1

Assessment:

The examined material compound meets the requirements of class B1 for "schwerentflammbare" (hardly flammable) building materials according to DIN 4102-1 if used in one layer, suspended freely or with distance of >40 mm to the same or other plain materials.

(for details see page 5)

Validity of report:

2016-07-31

Sampling:

The test material was send by the manufacturer

to the laboratory.

Remark: If the above-mentioned building material is not used as product according to MBO § 2, Abs. 9, Ziffer 1, there is no need for a general building supervisory test report.

This test report is not valid if the examined building material is used as product in the meaning of state building prescriptions (MBO § 17, Abs. 3).

This test report does not replace an eventually necessary proof of applicability concerning building supervisory or building laws in the meaning of state building prescriptions. This has to be verified by:

- "allgemeine bauaufsichtliche Zulassung" (general building inspectorate approval) or by
- "allgemeines bauaufsichtliches Prufzeugnis (general building inspectorate certificate) or by
- "Zustimmung im Einzelfall (exceptional approval).

This test report can underlie building supervisory procedures:

- for regulated building products for the pre scribed proofs of conformity
- for non-regulated building products for the needed proofs of applicability.

This test report comprises 5 pages and 3 enclosures.
